First Meeting

Duration – 1 hour

The first meeting is an opportunity for us to get to know each other. It's a taster for what it's like to work with each other.

Parents find it useful in structuring their core questions, and in discovering how we can collaborate best in mentoring their child. Students discover classic career planning & college application rookie mistakes, and gain clear insights into how they should go about grooming themselves.

In this meeting, I present my past experience, learning from global engagements and share several resources from my counseling toolkit.

PS: I'll answer any and all of your questions!

Natural Talent Testing

Assessment – 3 hours

Feedback – 1 hour

The Johnson 'O Connor Foundation, USA (jocrf.org) test of natural abilities is one of the most advanced aptitude tests in the world and I find it to be extremely accurate in assessing a person's aptitude. Starting 1922, it is the product of over 90 years of continuous research.

I conduct this aptitude test with high school students & young adults (only ages 15 & above) in my office. The test lasts 3 hours and needs no prior prep. It is composed of 19 different exercises and the results help you discover what it is that you do better than other people.

Results are generated in the form of a scorecard which I explain in a private feedback session. I then assist students make informed decisions about school subject selection, major/degree selection, career choice and career path.

PS: You'll be surprised at how many parents come & secretly take this assessment once their kids have undergone it!
